

MultiSpeak Software Interoperability Solution

“De-Risking Technology Integration”

Why Do You Need MultiSpeak?

Opportunities with MultiSpeak

The Value of MultiSpeak

Integrating MultiSpeak with Other Vendors Used by RECs

Outage Management

Energy providers

Telecommunications

AVL

Public services

Workload Logistics

CIS

Billing

Consumer Outputs

Be Proactive about Cyber Security with MultiSpeak

- REC's need secure solutions and the ability to update
- Data is secure and meets NIST Cyber Security Standards
- Vendors who adopt MultiSpeak are preferred by the REC community
- Streamlined Security standards make future upgrades and interfaces easier to build

Who is Using MultiSpeak?

Mid-Sized REC

- Integrations are required
- Proactive updates to handle daily hacks

Small REC

- Integration easier
- Protect yourself

Vendors

- Get product tested & certified
- Increase your visibility

Dept. of Energy

- Vendors need national security standards
- RMP process met

Grow with MultiSpeak

Proximity to customers

- MultiSpeak Certified Vendors get invited to the REC world
- RECs purchase based on other REC system case studies

Reliability

- MultiSpeak increases confidence in system stability
- Interfaces are easy to update, maintain and integrate

Experience

- Over 18 years of secure standardization
- MultiSpeak standard supported by NIST, DOE and RMP initiative

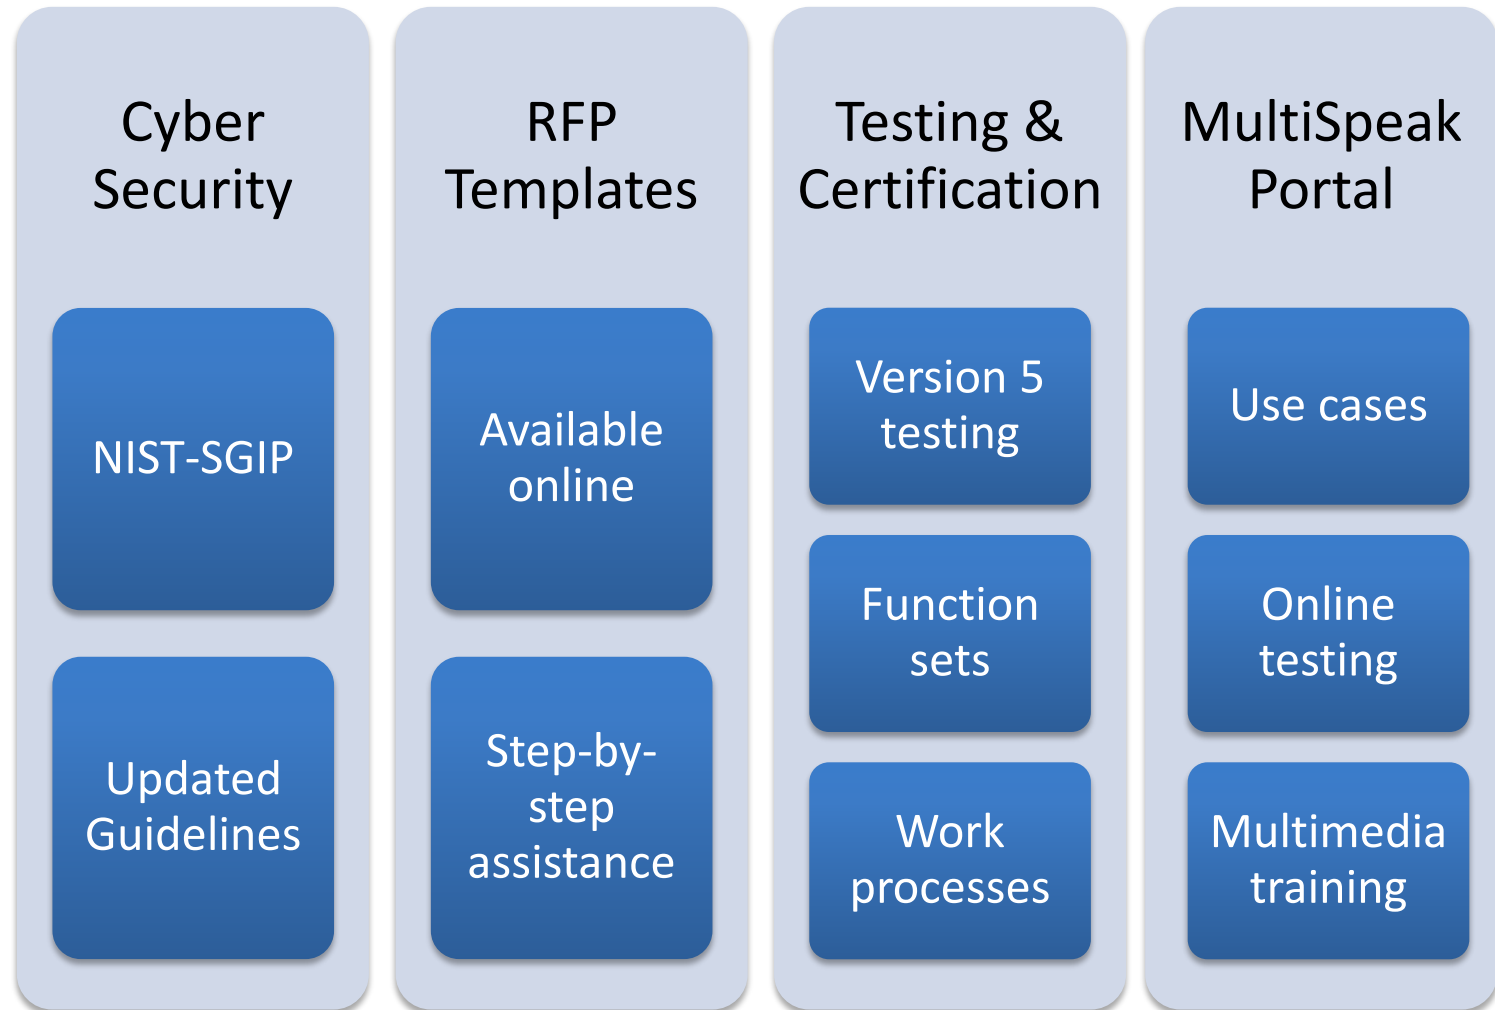

Service

- RECs know that integration will be easier based on the standard
- Increased Services available to the REC from certified vendor

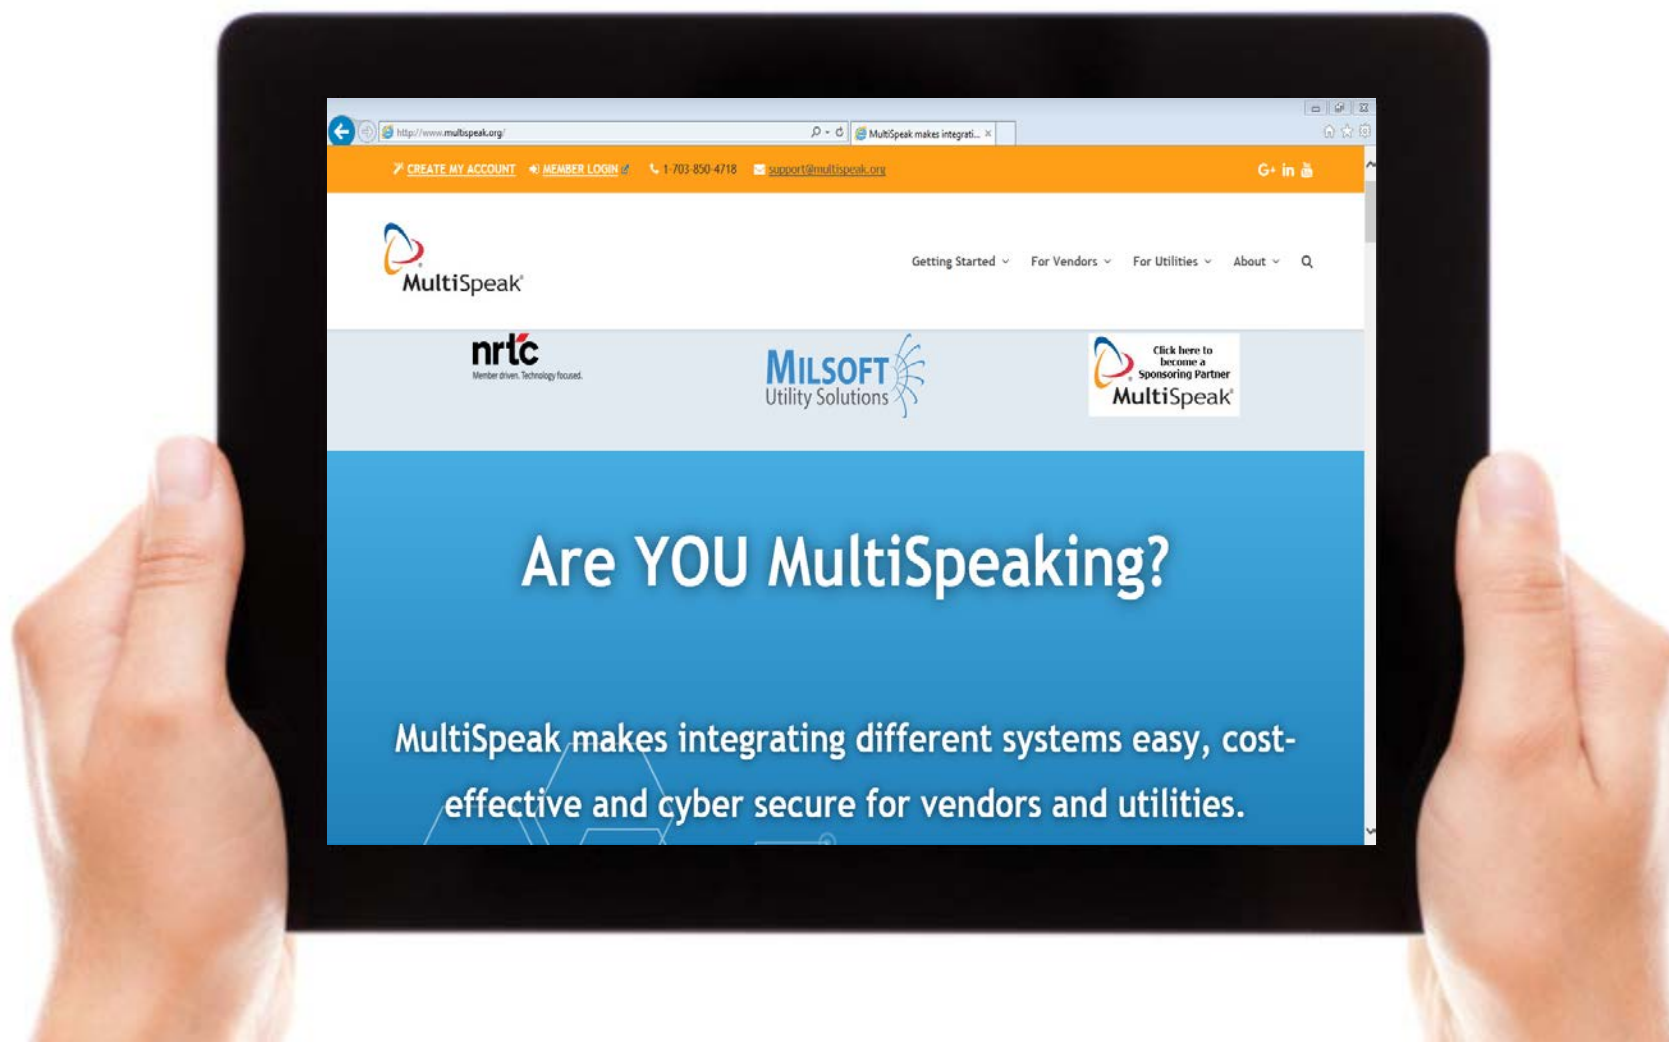

What's NEW in MultiSpeak?

MultiSpeak is constantly expanding to meet your changing needs

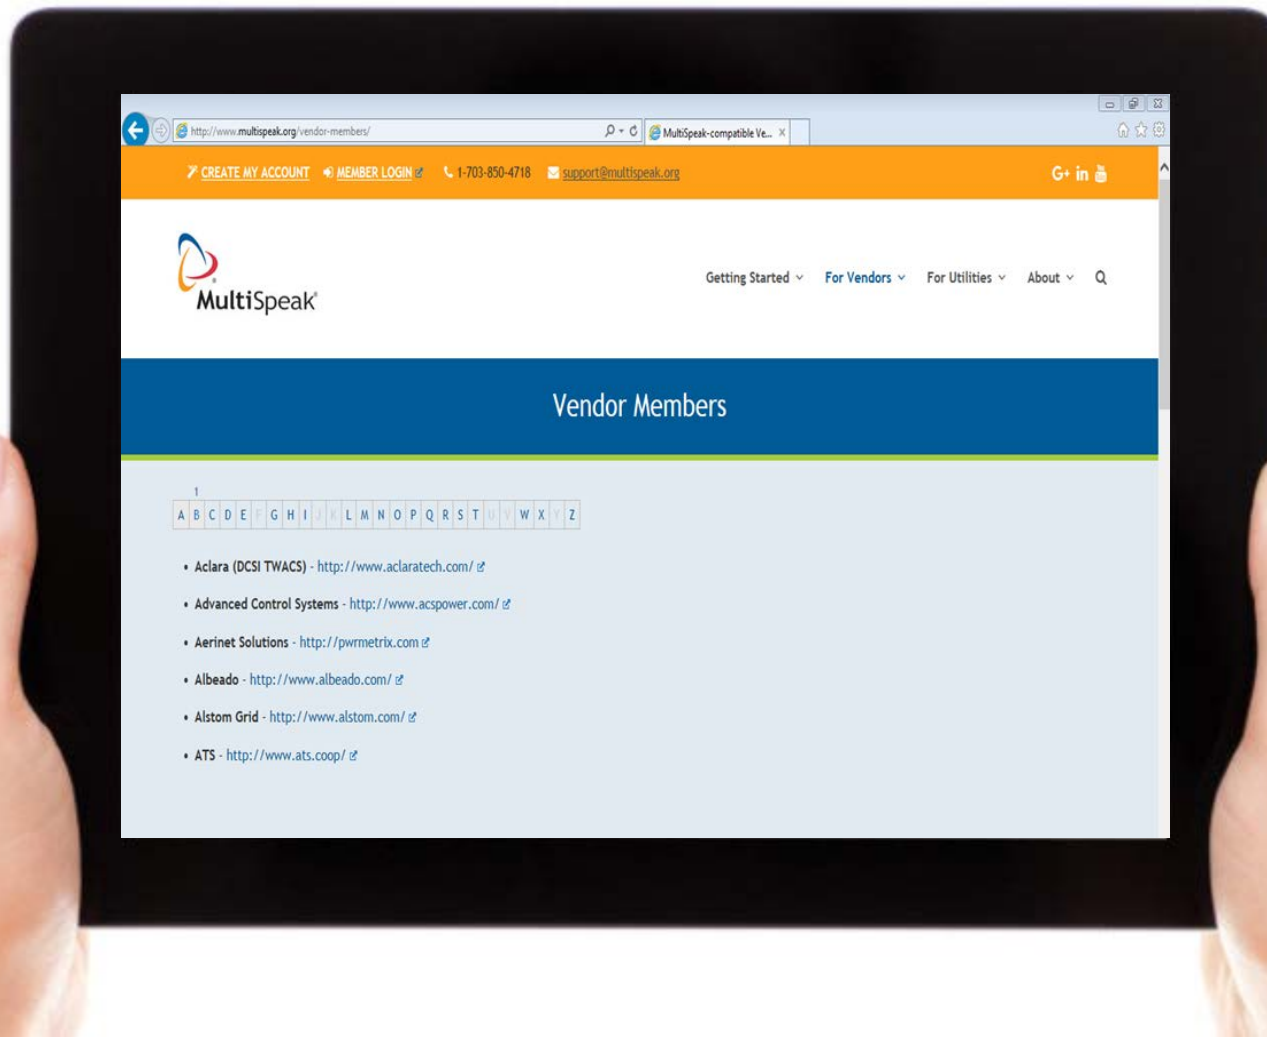

Visibility through MultiSpeak.org

RECs will find you and see that you MultiSpeak

Visibility through MultiSpeak.org

RECs will find you and see that you MultiSpeak

The background of the slide is decorated with a pattern of hexagons in various colors including green, orange, blue, red, and purple. Some hexagons are solid, while others are just outlines. They are arranged in a somewhat random, overlapping pattern.
